Message

I am glad to know that the Dr. APJ Abdul Kalam College of Physiotherapy, a constituent college of Pravara Institute of Medical Sciences (Deemed to be University) is organizing its 1st National Physiotherapy Conference 'Pravara PhyZion' on 25th& 26 February, 2023 at Pravara Institute of Medical Sciences (Deemed to be University), Loni.

The theme of the conference "Multifaceted Approach to Physiotherapy & Rehabilitation" is very relevant in today's time as many people are in need of Physiotherapy and Rehabilitation as a whole following Covid 19. Good health is basic necessity of every human being. Physiotherapy helps in restoring normal body functions, besides preventing disability arising from diseases, trauma or injury. The recent researches presented during the conference by Physiotherapy professionals from various corners of the country would certainly provide a platform for new thought in the domain of physiotherapy. It will hopefully provide fresh and incisive vision and add a new fillip to the treatment techniques beneficial for the patients.

Moreover, the changing lifestyle patterns in today's fast pace life has given rise to many problems and physiotherapy can help these patients improve their quality of life. New chapter of knowledge would set promising trend for the ongoing researches in the field of academia on such broad canvas and vast scales. The conference will provide a platform to interact and share knowledge about the recent developments, best practices and research works being carried out in the field of physiotherapy. I congratulate the organizing team for publishing a Souvenir on this grand occasion.

I extend my best wishes for the success of the conference.

(Eknath Sambhaji Shinde)
